New Everbearer

SOUTH MICHIGAN NURSERY

Minnesota 1166

Now Called "EVERMORE"

**At Last! An Everbearing Strawberry That Has Everything
Starts Bearing 60 Days after Set and Continues Bearing Till Heavy Frosts
3 CROPS IN 18 MONTHS!**

Minnesota 1166 is a large, long-pointed berry, produced on long-branched fruit stems, well hidden under the leaves for good protection. The color of the fruit is on the dark red order, and a solid red clear through the berry, even when the berry is still not quite ripe. The flavor is even better than the Wayzata everbearing, which up to now has always been the best flavored berry.

Minnesota 1166 is just as productive as any everbearing Strawberry we have grown, and makes a good quantity of plants. For best results in fruit production, we recommend that the runners be pinched off as fast as they appear in the summer. It's a strong grower, resembling the Missionary variety. The fruit is attached to a fine green hull that will not pull out even when the berries are dead ripe. This, with the small amount of juice that this variety contains, will make

it the very best jam berry ever introduced. This variety has been known to keep five days without refrigeration, and never mold or spoil in the hottest weather. It will dry up like a raisin before it will spoil. This will make it the coming commercial variety, as most other everbearing varieties will not keep long after picking.

Minnesota 1166 berries shipped to the South Water Street market in Chicago this summer sold for \$7.50 per 24-pint crate. Once you have tasted Minnesota 1166 berries you will eat no other kind. We know, for we grow all the varieties and at our table we choose the Minnesota 1166 every time. We have 150,000 of them to offer and we are sure this will not go half way around, so send in your order early, and take advantage of the discount we offer for early orders.

*Wayzata
Everbearer*

**Bears in 60 to 80 Days
3 Crops in 18 Months!**

Wayzata

- The Honey-Sweet Berry
- Red to the Heart
- Small Hulls
- No Green Tips

WAYZATA challenges the world in flavor, size and productiveness. Now matched only by Minnesota 1166. Newly set plants start to bear in 60 days, and continue for nearly six months without any let-up, if cultivated once a week, and all weeds kept out. Adapts itself to most any type of soil. Plants are hardy and tough. Their dark green, leathery-like leaves are rarely attacked by common strawberry plant diseases.

Wayzata plants set in the spring of 1946 will start to bear within 60 to 90 days, and bear all summer up to severe killing frosts. They will again bear a full crop in June, 1947, and another in the fall of 1947. Three nice big crops in 18 months. It is not an unusual thing to have fresh Strawberry shortcake for Thanksgiving days—both of them. 100 plants will be sufficient for an average family. Likes a heavy soil best.

BLAKEMORE

An extra early Strawberry that ripens 4 or 5 days ahead of the PREMIER. A cross between the Premier and Missionary. Berries bright red, pointed and extra firm. One of the best shipping berries. Excellent canner, and fine for freezing. Should be set 20 inches apart as it is an excellent plant maker. Does best on heavier soil, although can be grown on sand and light soils.

New Buffalo . . . Michigan

3 of the Better June-Bearing Varieties

NEW ROBINSON

Latest in Spring-Bearing Strawberries

MARVELOUS QUALITY. These big round blunt-pointed berries are of top quality. They are borne on large thick fruit stems, that are protected with a heavy foliage that makes up a wide fruiting and picking row. The tangy rich sweet flavor is found in no other Strawberry. Just imagine yourself ready to start working on the dish full of the berries below. Solid red all the way through and full of rich red juice.

LONG FRUITING SEASON. Robinson starts to ripen soon after Premier and continues right through the late Strawberry season. No let-up at all. Every berry a large one right up to the last picking. Bring a much higher price on the market, so it's the greatest money maker of all Strawberries. Sold for 50c a crate more than Premier.

HEALTHY FOLIAGE. The plants make a fine wide picking row, and foliage of the healthiest. Will grow on most any type of soil, just so that it is well drained. This is the second year we are offering it to you and naturally our stock is somewhat limited. Not a diseased plant in the whole lot was found by the State Inspector. Our prices are reasonable, and would advise you to plant all you can afford to buy to get a start of this wonderful berry.

Premier The Most Famous Berry Ever Introduced

If you plant STROMER'S PREMIER you will get the first berries on the market. They will be bearing heavily before other varieties begin. Your biggest picking will be when berries are in good demand and are bringing top prices. Premier will grow anywhere. The plants are sturdy and long rooted, a good drought-resister. The berries are very large, and hold their size to the last picking. The flavor cannot be beaten.

Premier

In Premier we offer you the greatest early Strawberry of all time. However, the early ripening of this variety is only one of its many good features. It is immensely productive and, unlike other early ripening Strawberries, the fruit produced by Premier is of the very finest quality, color, texture and flavor; and last but not least, every berry is large in size and uniform in shape. For every purpose that a Strawberry is wanted, Premier is supreme—eating, canning, preserving, distant and local market—no other variety can give you any more pleasure, satisfaction or profit. Premier succeeds everywhere and never fails to give a big crop of the very finest berries.

The foliage is tough and healthy, and grows tall and rank, covering the blossoms and berries, and protecting them from frost and scalding sun.

Senator Dunlap

Senator Dunlap is an old well-known variety that has made more dollars for berry growers than any other variety. It will grow most anywhere and on any kind of soil. However, it will do best on heavy rich soil. If planted on light soil, be sure to set them 2 feet apart. On heavy soils set them 18 inches apart. Berries are dark red, firm and sweet. Wonderful for canning and freezing, as well as fresh.

Giant Mastodon Everbearer

3 Full Crops in 18 Months 3 Big Profits

Mastodon has been with us for about 20 years, and in all these 20 years we have never known them to fail on a full crop 5 to 6 months long the same year they are set out. The size of the berry is like Wayzata—very large. It is of very good quality, red all the way through, and fine flavor. Bears as heavy as Wayzata, and makes many new runner plants. These new runner plants will also bear toward fall, and then you have a real picking row. This wide row will make fine picking the next June as a spring berry. Mastodon does not require any special soil, care or petting. They grow most anywhere, or on any soil that will grow garden or potatoes. They sell like "hot cakes" on roadside stands, or on any market. It will take a hard freeze to stop the Mastodon from bearing. White frosts will never hurt them at all. A field of Mastodon in full bearing in late November is a sight never to be forgotten. Even after a light snow one can go out and find ripe berries unharmed.

Gem differs a little from Wayzata and Mastodon in this way: Gem prefers a clay or a heavy sandy loam soil, where Wayzata and Mastodon do well on most any kind of soil. Gem also does best when grown in the hill system, so for best results keep all runners nipped off. The berries are large and smooth, and of a light red color, that ripen up even all around. Bears equally as heavy as Mastodon, and the berries get larger towards fall. Runner plants will bear as well as the mother plant. Gem is a good plant maker. Makes a good June-bearing variety. Bears 3 crops in 18 months. Gem makes a beautiful quart of berries. Berries like these sell for 50c a quart around Thanksgiving and bring good prices all summer long.

STREAMLINER

THE *New* EVERBEARER

ENORMOUS SIZE

BUT NEVER HOLLOW

BEARS 60 DAYS AFTER SET

20 %	DISCOUNT Until Feb. 5th
10 %	DISCOUNT Until Mar. 5th
5 %	DISCOUNT Until Apr. 5th

We are always on the outlook for a better Strawberry, especially an everbearing variety. There are many very good varieties, like Mastodon, Gem, Wayzata, and Minn. 1166 (Now named EVERMORE). They are all mighty good in every way. HOWEVER, we have never seen a more beautiful Strawberry than the STREAMLINER. It's almost round, with a small hull, and of enormous size. Even larger than the famous Mastodon. The STREAMLINER will ripen up even, to the prettiest bright scarlet color, which will attract customers' attention every time. Sweet as honey, with very little acid.

BEARS 60 DAYS AFTER SET

Set STREAMLINER plants during March, April or May, and you will be picking those big, sweet, juicy beauties 60 days later. Think of it—no waiting a whole year for berries. When late killing frosts come in October or November the plants will still be loaded with green and ripe berries, and even blossoms. It will take a good hard frost to stop them.

BEARS 3 CROPS IN 18 MONTHS

Then the following June, you will again harvest a full crop, just like an ordinary Strawberry, and with good care they will keep on bearing till late into the fall.

STRONG, HARDY GROWER

STREAMLINER is a thrifty, strong, and hardy grower. Does well on most any soil, and seems to do well in both wet and dry seasons. Perfect flowering, and needs no other variety to pollenize it. You will just have to try this variety to know how wonderful STREAMLINER really is. STREAMLINER is not going to take the place of MINN. 1166 (Evermore), but will be tough competition.

Streamliner
Everbearer

Streamliner Brings Sensational Results!

If You Will Follow These Simple Directions

Plant some STREAMLINER Everbearing Strawberry plants this spring, as early as you can work the ground. For garden culture you may set them 1 foot apart in the rows, with rows 2 feet apart. For field culture, set them 1 foot apart in rows, and rows 3 feet apart. Set plants not too deep. Have ground just level with the crown of the plant. Start to cultivate a week later and cultivate every week thereafter till fall. A garden rake is the best tool to use in the small garden patch. Keep all blooms and buds picked off for 30 days, this will give the plant a good start. After 30 days, let them bloom, and you will be picking ripe berries within 30 days after they bloom; they will never stop till killing frosts in the late fall. For the largest crop, it will be well not to let each plant make over three or four runner plants. Nip the rest of them off. In the hot dry spells you should water the plants in the evening and a good soaking once a week is better than to sprinkle every evening. Be sure to break the crust that the soaking forms, the next day about noon. This is most important, because this will prevent the soil from drying out too fast. It also kills weeds before they have a chance to get started. Follow these simple directions and you cannot fail with STREAMLINER. These directions also apply to all the varieties of Everbearing Strawberries we list.

Stramer's New WASHINGTON

Everbearing

RED RASPBERRY

This new giant everbearing Red Raspberry has given universal satisfaction to commercial growers as well as home garden planters. One of the thriftiest growers of all Red Raspberries. Giant red berries are borne in clusters on canes that are twice as heavy as ordinary reds. Berries are thimble-shaped, and small seeded. All meat. Berries are produced over a long season, starting a little later than Latham, and after the main crop is harvested, the young canes will start to bear another crop for fall. Plants are strictly hardy, and very resistant to diseases. No matter how many varieties of Raspberries you already have, you should add a few WASHINGTON to round out your collection. Should be set 2½ feet apart in the row. Wait till spring to trim each year's growth back to 30 inches high. After main fruiting crop is over, prune out this part of the plant to make room for the new shoots that will bear the next crop. Do this each spring. A handful of commercial fertilizer, or a shovelful of manure around each plant during the winter months will do wonders within the next few months. Plants are still scarce, so we are offering 2-year-old fruiting age, well-rooted transplants.

THORNLESS!

Red Raspberry

Canes are smooth as a grape vine. Absolutely thornless. This new early wonderful thornless Red Raspberry comes into bearing while Strawberries are still on, when Red Raspberries are selling at their highest prices. It's a week ahead of any other variety. Lengthen your fresh fruit season by adding a few plants of this Thornless to your collection. Berries are borne in large clusters, many ripe at one time. Fruit not quite as large as Washington, but just as sweet and good. Small seeds, and will not crumble when picking like so many early varieties. Excellent either eaten fresh, canned or fresh frozen. Keeps its color well. Plants a year old stand up stocky and sturdy like a little tree. THORNLESS plants are a scarce item, so we are offering 2-year-old fruiting size transplants only.

Stromer's Raspberries

MORRISON *Blackcap Raspberry*

LARGEST BLACKCAP RASPBERRY GROWN—Berries as Large as a Quarter

Would you believe that there could be a Black Raspberry that would grow larger than the Cumberland? Well, there is one now called the Morrison Blackcap. This new variety was found growing wild in Girard, Penna., by County Agent Paul Crossman of Erie County. Mr. Crossman was attracted by its unusually large size, and its shiny jet black color. The berry is much larger than the Cumberland, many of them nearly an inch in diameter. Mr. Crossman says that the plants are very free from disease, and are vigorous growers. We have been fortunate in obtaining a limited amount of these plants for our own propagation purposes, but we are going to let a few of them go to our customers for 1946. Don't wait too long, as when our stock is sold, we will have to refund the money, and you will have to wait to get your start. MORRISON excels as a berry for both home and commercial planting. The large attractive berries meet all culinary requirements. They are high in quality, firm texture, juicy, not so seedy as other

Blackcaps. MORRISON berries hold up longer in grocery and market displays. They will outyield other Black Raspberry varieties.

"Not just another Blackcap."

"Largest Black Raspberry I have ever seen."

"No diseased Morrisons have been found to this date."

"The most promising late Black Raspberry growing at the New York Station."—Geo. L. Slate.

Our Cumberland Blackcap listed on page 11 is reliable and good. Has been the outstanding commercial variety for many years. Now, however, Morrison comes along, and is just as much better in every way, that we are sure in a few years, everyone will be growing Morrison. It bears twice as many berries, because the plants grow twice as large, and the berries are a third larger too. It is possible to pick 8 pints of berries from a single well-cared for plant, the second year after set, so you see you do not need to buy many for home use. At 30 cents per pint you can see it will pay you to buy a few plants and raise your own, and have fresh fruit and some to can. We have less plants to offer this year than last on account of labor shortage. We were unable to fill one-third of the orders last spring, so you know what to do. Don't overlook the 20% discounts for early orders.

SUNRISE RED RASPBERRY

The **OUTSTANDING NEW RED RASPBERRY** originated by the U. S. Department of Agriculture has now been christened **SUNRISE**. It comes to fruit growers with many advantages over older sorts.

DR. DARROW and **PROFESSOR CLARK** describe the new berry in the U. S. Department Circular 397. It originated as a cross between Latham and Ranere. Among other things they say:

"Of most importance about **SUNRISE** from the standpoint of the practical grower perhaps, are:

1. "**HARDINESS** and **RESISTANCE** to disease."
 2. "**EARLINESS** and **LARGER SIZE** of the berry as compared with Ranere."
 3. "**BETTER TEXTURE** and **QUALITY** of the fruit compared with Latham."
- "In New Jersey where **SUNRISE** had been grown commercially for a period of six years, it has been outstanding."

MR. BLACK, a prominent New Jersey fruit grower, writes June 12, 1942:

"Have picked **SUNRISE** twice from plants planted in the spring of 1941 and had fair picking from this one-year-old field. They brought 25c a pint. We do not think Latham will be ripe for 2 weeks as they are just shedding their petals. Have a good prospect for a heavy crop."

These comments from competent and practical men are evidence that this **NEW SUNRISE** will find an important place in raspberry growing. It combines the most necessary characteristics of a successful berry—**HARDINESS—RESISTANCE** to **DISEASE—EARLINESS** and **HIGH QUALITY** of **FRUIT**.

SUNRISE has been under test and observation by the U. S. Department of Agriculture since 1923. We offer it to the general public at prices that are reasonable. The supply is limited. Place your order early.

LATHAM

Red Raspberry

Commercial Grower's First Choice

Latham is to Red Raspberries what Dunlap is to Strawberries. An old standby that grows anywhere on most any type of soil, and so hardy that it will stand 45 degrees below zero. Latham berries are large, often an inch in diameter. Best all-around berry to grow for a late red. Cans well, and fine for freezing. The plants grow large and tall. Holds the load of fruit well when trimmed back to 30 inches tall each spring. Plant **Sunrise** for real early, Latham for late, and Indian Summer or Washington for the late everbearing and you will have fruit all summer and fall.

INDIAN SUMMER

Everbearing

This new two-crop or everbearing Red Raspberry was introduced by the New York Experiment Station several years ago, and has been well tried out, and proven a success, both as a one-crop bearer, and also as an everbearer. The fall crop is borne on the new growth. The fall crop will start in September and continue till frost late in the fall. Berries are large, conical shape, firm, few seeds, and sweet. Fine shipping quality. The plant is a husky grower, perfectly hardy, and resistant to common diseases. Bears mid-season to late fall. We offer both 1-year and 2-year-old plants in this variety.

POTOMAC →

Purple Cap

Potomac is the best of all the purple varieties, so we are growing only this variety. Potomac will bear you twice as much fruit as any black or red Raspberry we have to offer. A Potomac bush in full bearing looks like it is all fruit.

Hardly any leaves are showing. It's a cross between a Black Raspberry and a Red Raspberry. Introduced a few years ago by the U. S. Department of Agriculture. Fruit is a beautiful bright purple, large, firm, and of fine flavor all of its own. Add a few of these fine CERTIFIED plants to your collection for Jams, Jellies, to be used fresh, canned, or frozen. Although Potomac is a Black and Red cross, it leans towards the Blacks, and is handled like one. It's propagated from tips. Should be pruned like a Black Raspberry. Plants are limited this year, so order early.

GARDENIA Thornless Dewberry

This is a new Dewberry of the Lucretia type and is absolutely thornless. Grows like any other Dewberry, it's hardy, and thrifty. Why put up with the old thorny varieties, when you can grow our Thornless Dewberry, and save all this. Berries are large and long, resemble the Blackberry, except that they are much larger, which will make them almost seedless. Ripen in July, and bear over a long period. Twelve plants will give you plenty of fruit for an average family. Grow them like a Boysenberry. Eat them fresh, canned or frozen. A pie made from fresh picked Gardenia is something to talk about. Plant stock limited. Order early. Have only 1-year plants to offer.

GARDENIA PRICES: 1-yr., No. 1 plants, each 40c; 3 for \$1.00; 6 for \$1.50; 12 for \$2.50; 25 for \$4.00; 100 for \$14.00. NO DISCOUNT.

CUMBERLAND

The Business Black Cap

This is without question one of the most profitable and popular Black Rasp-

berries ever grown. It is the one safe and reliable commercial variety because you can depend on a big crop regularly. We call it the "Business Blackcap" because it succeeds on all soils and produces its big crop year after year.

We have never known Cumberland to fail, and the best proof that it is a profitable variety is the fact that the demand for plants is greater every year and more Cumberland are planted than all other varieties combined.

Cumberland is perfectly hardy and tremendously productive. The berries are extra large, glossy black, and not equaled by any other variety in quality, flavor or appearance, except Logan. Whether wanted for market or home use, we can recommend Cumberland to our most exacting customers. Disease-free. Twice state-inspected plants.

Thornless Boysenberry

THORNLESS *Boysenberry* All of the Good Qualities of the Regular Boysenberry . . . BUT NO THORNS

This is the early ripening strain of Thornless Boysenberry with canes as smooth as a Grape vine. RIPENS 10 DAYS TO TWO WEEKS EARLIER THAN BOYSENBERRY. The introducer claims even heavier yields from this Thornless Boysenberry than the common Boysenberry. This new strain Thornless Boysenberry is identical to the Boysenberry except that there are no thorns and it ripens earlier. This is a very good feature as the early berries bring more money. The Thornless is just as hardy, rugged and heavy bearing as its parent the Boysenberry. Vines grow 25 feet long, and this pretty apple-green vine loaded with giant purple beauties is a sight you will never forget, and after you taste a handful of them, other berries will go begging for a while. Delicious with cream and sugar, and when made into jam, it's the last word. Supply of plants still limited, so hurry.

GOLDEN QUEEN RASPBERRY

A beautiful large golden yellow Raspberry. Many prefer this variety to any of the reds or blacks, owing to its sugary sweetness, and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, vigorous growers, and heavy croppers.

GOLDEN QUEEN PRICES

1-yr., No. 1, each 35c; 3 for \$1.00. NO DISCOUNT.

2-year-old BEARING-AGE TRANSPLANTS, fruit this year, each 50c; 3 for \$1.35. NO DISCOUNT.

WHITE BLACKBERRY

Strange as it may seem, this is a real creamy white Blackberry. Mixed with the jet black ones for dessert, it makes a most wonderful dish. The fruit is about the size of Alfred, with few seeds and quite sweet when fully ripe. The bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden.

1-yr., No. 1 plants: 20c each; 6 for 90c; 12 for \$1.50. 2-year-old, bearing-age transplants: 35c each; 3 for \$1.00; 6 for \$1.85; 12 for \$3.00. No discount.

White Blackberry

The ALFRED BLACKBERRY

Our 2-Year Bearing-Age Plants Bear a Year Sooner—Berries First Year

STANDS 30 DEGREES BELOW ZERO, GEO. STROMER, ORIGINATOR

Year after year, with diligent care, I have propagated these plants to such an extent that the fruit is now being supplied to the local markets at a fancy price, and is always in good demand. Last year I measured many berries that were over 1½ inches long, and 3 inches around. Buy from the originator and get GENUINE ALFRED.

EXTREMELY HARDY. ALFRED can be grown anywhere without winter protection, having withstood 30 degrees below zero, and not a single tip of a branch injured, while our other varieties were frozen to the ground.

EARLY SEASON. It ripens a week to ten days earlier than Eldorado and in productiveness it is in a class by itself. We have seen them bear a second crop. We picked many crates this year in September.

GIANT *Hybrid*

CULTIVATED BLUEBERRIES

You can grow our Giant Cultivated Blueberries right in your garden. Mix a little peat moss, sawdust or leaf mold with the soil to keep it acid. May also use in a shrub border, as their dark green waxy leaves turn bright red in autumn. Berries grow in clusters like small bunches of Grapes. Many berries as large as a nickel. Sweet and mild, with hardly any seeds like wild Huckleberries. Fruit ripens over several weeks' time, during the month of July. We

advise planting TWO or more plants. Set 5 feet apart each way, and cultivate shallow, as their roots grow near the top. Our 3-year size plants usually start bearing the next year after set, although this size plant has a few buds. We offer Jersey, Rancocas, and Rubel varieties. Let us select the variety best suited for your locality.

It Pays to Mail Your Order Now

20% discount will again be allowed for all 1946 fall orders. If this catalog reaches you after January, 1946, we will allow you 10 days' time to take advantage of the 20% discount. This is done to be fair to folks who ask for the catalog and receive it after discount dates.

Your order will not be shipped until you are ready for it in the spring.

ATLANTIC and PEMBERTON BLUEBERRIES

These two brand new varieties are the last word in HYBRID cultivated Blueberries. They have everything. Much larger in size than any other varieties and more disease resistant. Better growers. Supply very limited. Have only 2-year-old plants to offer in these two NEW varieties.

Price: 2-year-old plants, 2 plants (1 of each) for \$7.50; 4 plants (2 of each) for \$14.00. NO DISCOUNT ON ATLANTIC and PEMBERTON.

GUARANTEE

We guarantee all of our nursery stock to be just as represented in our catalog; fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer alive, and in perfect growing condition. Furthermore, we will, at our option, either replace free of charge, or refund purchase price on any stock that arrives in bad condition; providing claim is made within 5 days from arrival of shipment, accompanied by a signed statement from the Express Agent or Postmaster at destination, showing extent of loss or damage. If any stock proves untrue to name it will, at our option, either be replaced free of charge, or purchase price will be refunded; but in no case will we be responsible for a sum greater than the original purchase price paid. Beyond this our liability ceases. It is understood and agreed between the customer and ourselves that the purchaser's order, and our acknowledgment of its receipt, shall constitute a mutual acceptance of the above terms and conditions.

APPLES

Apples are called "King of Fruits." Easy to grow, and pay well for the little effort given them. Will grow in a very wide range of territory, and are perfectly hardy in all parts of the country, except perhaps in the extreme northern portions of some states. Anoka is the hardiest variety we offer. We list 2 sizes of trees. The 2-year-olds are 9/16 in. caliper, 4 to 6 ft. tall. SUPER SIZE means 1 1/16 in. and larger. SUPER SIZE are nearly all 3 years old. In some cases they are only 2 years old. The SUPER SIZE trees are well worth the extra cost.

Northern Spy

It's hard to beat the Northern Spy Apple for eating, cooking or any way you want to use it. Fine grain flesh, juicy, and mellow. Has a flavor that is found in no other variety. Trees grow upright, and make an excellent shade tree as well as a fruit tree. Why not plant one in the yard, and sit in the "Shade of the Old Apple Tree?" 2-yr. and 3-yr. size trees available.

Double Red Delicious

Double Red Delicious

This variety is far superior to the common red Delicious as it is highly colored all around, with no green sides. Double Red Delicious is America's number one Apple. It tops the market every time, and seems to bear in a wide range of soils and climates. The fruits are very large, solid red, with the five points, and rather long in shape. Truly a most beautiful Apple, and the best eating Apple of them all. Flesh slightly yellow, with semi-sweet flavor. 2- and 3-year-old sizes available.

DOLGO CRAB

The perfect Crab. Hardy everywhere. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. A fine ornamental tree for the lawn as well as a wonderful commercial sort. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young. **Prices at right.**

VEST POCKET APPLE TREES 5 Varieties All on One Tree!

This is not just a novelty but a wonderful idea where folks have just a limited space to plant trees. This **Vest Pocket** Apple tree will give you five varieties all on one tree. From early to late winter Apples. This combination is Double Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy and Crimson Winesap, all budded on Yellow Transparent stock. This will give you five varieties.

We offer only the SUPER SIZE trees. These are all 3 years old. Price: \$5.00 each. NO DISCOUNT.

Hardy Apricot

Produces good size fruit of an orange-yellow color with a darker red cheek. Very delicious flavor, with small **freestone pit**. They are very productive and bear young. As hardy as a Peach, and as easy to grow. Ripens in August.

2-year-old trees, each \$2.25. SUPER SIZE TREES, 2-year, each \$4.50. NO DISCOUNT.

JONATHAN

This is No. 2 Apple on the market. That is, Red Delicious brings the highest prices and sells the best, and Jonathan comes next. This variety cannot be praised too highly. It's solid red, good sized, firm, juicy, and keeps well. Its flesh is white and brittle with that tart tangy flavor that's in a class all of its own. Cast your eye on those two Jonathan Apples to the right. That's just the way they look when fully ripe. Sink your teeth into a tree-ripened Jonathan and the juice will squirt right into your left eye. If I had room for only one Apple tree, I would surely plant a Jonathan. Start to bear the fourth year after set, and bear every year. We have a 40-acre Apple orchard in bearing. Thirty acres of it are Jonathan. **Prices on left-hand page.** 2- and 3-year sizes available.

Jonathan

YELLOW TRANSPARENT

The finest extra early yellow Apple. It ripens in July and the season continues to September. Fruit medium size, and can be used for pies and sauce before entirely ripe. Flesh white, mild, juicy, and sweet. Trees grow upright, and can be planted at much less distance than most other varieties. Bears young and regularly. 2- and 3-year sizes available. **Prices on left-hand page.**

McINTOSH

McIntosh is a late fall Apple. The fruit is red, good size, with white flesh. We would say that it takes the place of the old-fashioned Snow Apple. It's an eating Apple. Trees grow fast and bear young. Not a winter keeper. 2- and 3-year sizes available. **Prices on left-hand page.**

YELLOW DELICIOUS

Winter. Comes into bearing early, producing heavy crops. Very thrifty, hardy, vigorous grower. A golden Apple which has won fame as an outstanding commercial variety. **Prices on left-hand page.** 2- and 3-year sizes available.

ANOKA

No waiting for fruit if you plant Anoka. Hardy in all climates. The best early summer Apple of red color. Wonderful cooking Apple, as well as a tasty eating Apple. Mellow and juicy. Not tart. The trees of the Anoka variety are somewhat dwarfed on account of their early bearing qualities. We offer you strong, healthy trees in both 2-year-old and in the SUPER size. Order yours early, as each year we sell out of ANOKA long before the season is over. **Prices on left-hand page.** 2- and 3-yr. sizes available.

Yellow
Delicious

Caco

CACO

This is the new quick growing, young bearing, delicious, sweet, big red Grape that is so popular. It has no equal as a home-use table Grape. It has a peculiar characteristic found in no other Grape, in that it is rich in flavor. Its deep, wine-red color is so pleasing to the eye. A vine full of these rich red beauties is a sight. Ripening in September as they do, the crop will be harvested long before killing frosts. **Prices: 2-year-old, No. 1, each 45c; 6 for \$2.40; 12 for \$4.00. Less Discounts.**

Fredonia

FREDONIA

This new early black Grape was originated at the New York Experiment Station. No other Grape contains quite so much sugar as Fredonia. Bunches are large and compact. Very hardy, vigorous grower. Bears second year. Ripens 15 days ahead of Concord, and tops the market on account of its high quality. A few cents spent now for some Fredonia plants will be a lifetime investment, for which you will never be sorry. **Prices: 2-year-old, No. 1, each 40c; 6 for \$2.10; 12 for \$3.60. Less Discount.**

GOLDEN MUSCAT

This new hardy California yellow Grape can now be grown anywhere, because it's hardy enough. The berries are large, and form a big compact bunch that is very attractive. Quality is of the best, fruit being meaty with the Muscat aroma. Be sure to have at least one plant of this new variety in your garden or back yard, and be convinced. **Prices: 1-yr., No. 1, strong plants, each \$1.50; 3 for \$4.00. No Discount.**

DELAWARE

This honey-sweet red Grape grows in small compact bunches. Medium size berries of the most excellent quality. Ripens with Fredonia. Vines are somewhat DWARFED but vigorous and healthy. You should have a vine or two of these if not more. **Prices: 2-year-old plants, each 40c; 2 for 75c; 6 for \$1.80. Less Discount.**

Spirea Van Houttei

One of the most common but still one of the most beautiful of all shrubs. So easy to grow. The branches covered with small white blooms will droop gracefully to the ground, and it is sometimes called Bridal Wreath. Blooms early spring. **Prices: 3-year-old plants, husky, 18-24 in. tall, each 35c; 3 for \$1.00; 6 for \$1.80. 3-year-old, 2-3 ft. tall, each 50c; 3 for \$1.35; 6 for \$2.40. 4-year-old, 3-4 ft. tall, each 65c; 3 for \$1.80; 6 for \$3.00. Less Discount.**

Viburnum Carlesi

This is the grandest of all shrubs. The beautiful pink flowers have a fragrance exactly like the TRAILING ARBUTUS. Does well in a shady spot where it's cool and moist. Grows into a bushy shrub. Blooms early in the spring. **2-year-old plants, each \$1.25. No Discount.**

Seneca

Concord

CONCORD

Concord is beyond a doubt the most popular blue Grape. More Concord are planted than all other varieties. It is the commercial table and wine variety. Concord is perfectly hardy, having stood 30 degrees below zero without injury. Does well on any soil, but makes the sweetest fruit on light sand that has been well fertilized. Bunches are large, compact and well shaped. Sweet and juicy. Vines grow fast, and bear second year. **Prices:** 2-year-old, No. 1 plants, each 40c; 6 for \$2.10; 12 for \$3.60. 3-year-old, bearing-age plants, each 60c; 3 for \$1.50. Less Discounts.

SENECA

THE NEWEST THING IN GRAPES

This is not just another yellow Grape. It's different. It's early to ripen. Bunches are large, compact and tapering. Berries are oval in shape and sweet as honey, juicy, yet firm, and best of all the skin can be eaten with the berry. SENECA can be grown anywhere on any soil. It's hardy, and vigorous. Have only 500 plants to offer, so hurry up your order before we are sold out on them. We offer 2-year-old, No. 1 plants, 2-year-old plants, each 85c; 3 for \$2.25. No Discount.

A 3-Yr. Dwarf Red Delicious

Dwarf FRUIT TREES

*Old Folks Should
Plant Dwarf Trees*

Collection No. 15

1 DWARF BARTLETT PEAR
1 DWARF APPLE (Your Choice)
All for Only \$5.00
NO DISCOUNT

DWARF APPLES

Dwarf Apples are just the thing for small back yards and small places. Trees bear first and second year after set, and although they never grow taller than 5 to 8 feet, they bear standard size fruit. The supply of Dwarf Apples is still limited, and it would be wise to order early. Please give second choice of varieties. We are offering the following varieties: Double Red Delicious, Yellow Delicious, Jonathan, Cortland, McIntosh, Red Astrachan, Yellow Transparent, Northern Spy, Anoka, and Wealthy.

PRICE: 2-year-old trees, each \$3.00; 3 for \$8.50; 5 for \$13.75. NO DISCOUNT.

DWARF BARTLETT PEAR

Fruit the same as standard Bartlett. Trees stay small, and bear second and third years after set. Hardy. Supply limited. Order early.

PRICE: \$2.50 each. NO DISCOUNT.

Dwarf Bartlett Pear

Purple
Persian Lilac

Purple PERSIAN LILAC

A decided improvement over the common Lilac. A shrub with slender arching branches, attaining a height of 5 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common, and does not sprout so from the roots. We consider the Persian much preferable. Blooms young and every year. May be trained into a tree by selecting a single stem or pruned each year to make a fine shub. Makes a beautiful hedge when planted 2 feet apart and trimmed to the desired height. We offer 18- to 24-inch plants.

PRICE: Each 60c; 3 for \$1.55; 10 for \$5.00. LESS DISCOUNTS.

ALTHEA - Rose of Sharon

This beautiful shrub is hard to beat. We are offering 3 colors in single and double.

ALTHEA, COELESTIS. Bright Morning-Glory-blue. Single flowers 3 inches across, blooms from mid-summer till frost. Pretty Pansy-red center. Fine cut flower.

ALTHEA, SINGLE RED. Same as above except it's bright red. Very beautiful. Fine cut flower.

ALTHEA, DOUBLE PURPLE. From mid-summer till frost this shrub will be covered with the prettiest double blooms one could wish for. Fine cut flowers.

PRICES: 18- to 24-in. plants, 2-year-old, each 45c; 3 for \$1.25. (One of each for \$1.25.) LESS DISCOUNTS.

Althea—
Rose of
Sharon

SCARLET FLOWERING QUINCE

Blooms real early in the spring. Hundreds of scarlet flowers. Bears fruit that is good for jelly.

PRICE: 18- to 24-in. shrubs, each 55c; 3 for \$1.50. LESS DISCOUNTS.

Bearing Bush of Hansen Bush Cherry

Amoor River Privet Hedge

This is the most popular and useful hardy hedge. Grows under all conditions, both favorable and unfavorable. Even grows in smoky city sections, where other plants fail. Dark green leaves, with clusters of fine small flowers early in the spring. Can be clipped any time during the growing season as well as when dormant. Should be set 8 inches apart. **Prices:** 2-year-old, heavy, 18-24 inch plants, each 40c; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$19.50. **No Discount.**

Red Barberry Hedge

MIXED GLADIOLUS

This wonderful mixture is made up of ten of the best and most popular varieties. All strong growers of every color. All giant flowers and many ruffled ones. Every bulb will bloom this year. **25 for \$1.25; 75 for \$3.00; 100 for \$3.50. NO DISCOUNT.** Large giant size bulbs, 12 for \$1.50; 25 for \$2.50. **NO DISCOUNT.**

Hansen

BUSH CHERRY

The New Quick-Bearing Cherry. **EASY TO GROW—SURE TO PRODUCE. Highly Productive—Good Flavor—Hardy Everywhere.**

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree grows in a dwarf bushlike shape, rarely getting over 4 or 5 feet tall. Also of striking ornamental value.

Plant Hansen Bush Cherries

Because:

- 1—They are so easy to grow and are perfectly hardy everywhere.
- 2—Are good to eat fresh, and make delicious preserves.
- 3—Bear from the ground up, early, heavily, and annually.
- 4—Are dwarf growing, bushy, and take up little room.
- 5—Excellent for hedges, ornamental shrubs and erosion control.

CHINESE ELM HEDGE

This is by far the best tall hedge. Can be controlled from 3 feet to 20 feet tall. Leaves stay on tree till late Fall. Set plants 12 inches apart and keep pruned to insure a thick hedge and background. Fine for hiding unsightly buildings or neighbors' back yards. Hardy and will grow anywhere—city or country.

PRICES: 12- to 18-in. plants, each 20c; 6 for \$1.00; 25 for \$3.00; 100 for \$8.00; 500 for \$35.00. **LESS DISCOUNT.**

HANSEN BUSH CHERRY HEDGE

Hansen Bush Cherry makes an excellent hedge, both for a low growing kind, or a medium tall one. Set plants 12 inches apart, and you will have a hedge so thick a rabbit cannot crawl through it. Have fruit and a hedge, too.

PRICES: 18- to 24-in. plants, transplants, each 30c; 6 for \$1.70; 12 for \$3.00; 25 for \$5.50. **LESS DISCOUNT.**

RED BARBERRY HEDGE

Same as green Barberry except that the foliage is bright red. Stays red all summer and followed by red berries in the Fall. Plant 18 inches apart. Fine to plant near or around evergreens to discourage dogs.

PRICES: 9- to 12-in. 2-year-old transplants, each 50c; 3 for \$1.40; 12 for \$4.50. **LESS DISCOUNTS.**

[19]

Red Barberry Hedge

HANSEN BUSH CHERRY

Red-
haven

Peaches

The New REDHAVEN

Long before other early Peaches are coloring, **Redhaven** is flaunting its bright red-all-over dress! It colors beautifully, long before ripe, and can be picked and marketed at a high price, while still firm enough to ship well.

Redhaven ranks with the best Peaches in richness of flavor, fineness and firmness of flesh, quality, yield, hardiness, and dependability. It bears a full crop when other varieties fail.

It's a **freestone, self-pollenizing, extra early** Peach that will get the first high Peach prices, and bring extra profit for you.

Right at the beginning of the Peach season, when other early Peaches are still green, **Redhaven** Peaches are beaming from the tree like so many scarlet beacons! You can see them a great way off, and want to eat them even before they are soft! They get those first, eager, **big Peach dollars**, for they set their own price.

FAMOUS "HAVEN" FLAVOR

If you have grown and eaten South Haven and Hale-Haven, you have another treat in store when you taste **Redhaven**. It was originated by Stanley Johnston of South Haven Experiment Station, who also originated the other "Havens." But this one tops them all, because it is so extra early, yet such a hardy variety, big bearer, and dependable cropper. A real, all-around Peach.

BRIGHTEST RED DRESS

Redhaven has the brightest coloring of any Peach. Looks like it's ripe 10 days or more before it's ready to pick. Peach growers have always dreamed of having a Peach that really had color, flavor, quality, quantity, and would ripen early enough to avoid price competition. **Redhaven** more than answers that dream. It is destined to stand with all the big-profit Peaches. A freestone, perfectly self-pollenizing variety. Get started with **Redhaven** this spring!

NO DISCOUNT ON REDHAVEN

HALE-HAVEN

Introduced by the Michigan Experiment Station. It is a cross between the J. H. Hale and the South Haven. Freestone. Yellow flesh. Firm. Excellent quality. Ripens last week in August. This is what we consider the very best Peach of them all. Trees are strong growers, and hardy. This variety will make you big money and should be planted extensively. No better variety ever introduced for canning and eating fresh.

5%	Discount until April 5th

BLACK MAGIC. Newest thing in Iris. Grows dwarf, and blooms May to October. Color real dark blue, nearly black. Price: 60c each. **NO DISCOUNT.**

ELEANOR ROOSEVELT. Blooms May to October. Blooms rich red-purple flowers of silky texture. Dwarf growing. Everblooming. Price: 60c each. **NO DISCOUNT.**

Stanley Prune

Stramer's PLUMS

STANLEY PRUNE

Large blue Prune-type Plum. Sweetest of all Plums. Flesh is yellow as butter, and the pit falls out when broken open. Starts to bear young, and regularly each year. Needs no other variety to pollinize. Ripens early September. Wonderful shipper, and keeper. Eat them fresh, can them, or freeze them, and you will have the best. Supply of Stanley Prune trees limited this year. Order early.

PRICES: 9/16 in. caliper, 4 to 5 ft. tall, 2-yr.-old, each \$2.00; 3 for \$5.75. **SUPER SIZE**, 11/16 in. and up, each \$2.95. **LESS DISCOUNTS.**

SANTA ROSA PLUM

Big heart-shaped red Plum of superior quality. Bears young and heavily each year. Fine eating and canning Plum. Supply limited this year.

PRICES: 2-yr., 9/16 in. caliper only, each \$2.00; 3 for \$5.75. (NO **SUPER SIZE**.) **LESS DISCOUNTS.**

Santa Rosa Plum

BARTLETT PEAR

Gets ripe in Peach season. The most popular home use and commercial variety. Large yellow with red cheek. Flesh white, tender and juicy. Bears every year and comes into bearing young.

PRICES: 2-year-old, 9/16 in., 4 to 6 ft. tall, each \$1.85; 3 for \$5.25. **SUPER SIZE**, 11/16 in., each \$2.50; 3 for \$7.00. **LESS DISCOUNTS.**

Bartlett Pear

YELLOW EGG PLUM

Large round yellow Plum. Yellow inside and out. Fine flavor and excellent for canning. One of the best for Plum butter. **SUPER SIZE TREES ONLY. Price: Each \$2.95. LESS DISCOUNTS.**

Balance of Season
Net Prices

LINCOLN PEAR

The jumbo fall Pear. This beautiful early fall Pear is extra large and well-shaped. Greenish yellow skin, with red cheek. Flesh is white, crisp and juicy. Heavy bearer, and will stand extremely cold climates.

PRICES: 2-yr.-old, 9/16 in., 4 to 6 ft. tall, each \$1.95; 3 for \$5.75. **LESS DISCOUNT.** (NO **SUPER SIZE** AVAILABLE.)

PRUNUS TRILOBA Double Flowering Plum

Often called Rose Tree of China. It's a double flowering Plum. Dwarf growth habits, and blooms real early in the spring before the green leaves appear. Blooms first year. Blooms 1 inch in diameter, and hundreds on one little plant. See picture above.

PRICE: We offer 2- to 3-ft. plants, well-branched, each 85c. **LESS DISCOUNT. Bloom first year.**

PRUNUS NEWPORT

This ornamental flowering Plum is one of the finest. Upright spreading bush form. Dark red foliage all summer. In spring it will be covered with dainty pink double flowers. No fruit. A few of these in your yard will really add a splash of color to your landscape planting.

3- to 4-ft. trees, each \$1.10; 3 for \$3.00. LESS DISCOUNTS.

Cherries . . .

One of the Most Popular Fruits

MONTMORENCY. This is about the best of the so-called Sour Cherries, or Pie Cherries grown. They are large, small seeded, and sweeter than most varieties. Fruit bright red to dark red when dead ripe. Bears every year and often on 3-year-old trees. Can be grown successfully anywhere on most any type of soil. Can be grown where Sweet Cherries fail. Very hardy, vigorous grower. Best canning variety as well as best for freezing. **PRICES:** 1-year-old, 9/16 in. caliper, 4 to 5 ft. tall, each \$1.75; 3 for \$5.45; 6 for \$9.60; 10 for \$15.00. **LESS DISCOUNTS.**

SCHMIDT. This is also a fine Sweet Cherry. Large black fruit, good shipper and good pollinizer for Bing. Ripens a little earlier than Bing. Not quite so large but of the finest quality. Firm and brittle. Fine for canning or for eating right off the tree. **PRICES:** Bing and Schmidt, 1-year-old, 9/16 in. caliper trees, each \$2.50; 3 for \$7.00. **SUPER SIZE,** 1 1/16 in. caliper, 1-year-old, each \$2.95. **LESS DISCOUNTS.**

RUSSIAN MULBERRY

If you plant Cherry trees this year or now have Cherry trees growing, plant a Russian Mulberry for the birds. They will leave your Cherries alone, and eat the Mulberries. One tree is enough.

PRICE: 5- to 6-ft. trees, each 85c. **LESS DISCOUNTS.**

Montmorency

BING - Sweet Cherry

This is that extra large blackish red Sweet Cherry that you see in the fancy fruit stores, that sells anywhere from 35c to 60c per pound. Brittle and sweet. Small pit. Dark wine-red all the way through the meat. Remarkable keeping qualities, and a wonderful producer. Ripens about the time most of the smaller varieties are off the market. Brings the highest price on any market on account of its size and attractive appearance. Sells like hot cakes at all roadside stands. Trees are vigorous, and will grow anywhere on any kind of soil as long as it's well-drained. Do not plant them where it is a little wet. Unless you already have a Cherry tree growing, we would advise you to plant at least two trees. These need not be of the same variety. Trees are hardy anywhere the temperature stays above 40 below zero. **PRICES:** Above, same as Schmidt.

VICTORIA RHUBARB

This giant stalked Rhubarb is the best that can be grown. It is tender, early, and has a mild acid flavor. Stalks are reddish green. Delicious for pies and sauce. We offer you nice size 2-year-old roots that can be cut this year.

PRICE: Each 25c; 3 for 65c; 12 for \$2.00; 25 for \$3.75; 100 for \$14.00. **LESS DISCOUNTS.**

HOUGHTON GOOSEBERRY

Extra large berries of excellent sweet flavor and quality. Greenish yellow turning to a yellowish pink when dead ripe. Plants perfectly hardy and bear young. Last a lifetime and bear every year. **Strong 2-year-old plants, price: \$1.00 each. No Discount. Very Scarce.**

HORSERADISH ROOTS

This is the good old Bohemian Horseradish. Will grow any place from high light sand to rich bottom land. Grates up fine and tender. White as snow and strong as Samson. **Prices: 6 for 35c; 12 for 60c.**

58-DAY HYBRID YELLOW SWEET CORN

This is the earliest and sweetest of all Sweet Corn. Ears 7 to 9 inches long. Stalk grows to medium height and several ears on one stalk, when planted in good garden soil. Big money-maker. Be the first one to offer Sweet Corn for sale this year. First Corn always brings 50c per doz. **Price: 1/2 lb., 50c; 1 lb., 75c; 5 lbs., \$3.50, postpaid. Less Discounts.**

CANADA RED RHUBARB

A brand new Rhubarb imported from Canada. Stems dark red clear to the heart and up in the leaf. Sauce made from our Canada Red will be as red as strawberry jam. Skin so tender it can be cooked with the stem. Grows to a giant size. Stock still limited. We offer divisions as it cannot be grown from seed. **Prices: 2-yr. division roots, each 85c; 3 for \$2.40. Giant clumps, 3 yr., each \$1.35. No Discount.**

You can pull stalks from either 2-yr. or 3-yr. clumps this year.

ROCK-O-HONEY MELON

This is the last word in a Melon. It's a cross between the Honey Rock and the Hearts of Gold. They are large and hard as a rock, yet tender, sweet, and excellent flavor. Smallest seed cavity. Golden orange-yellow. You must try them. **Prices: Packet, 30c; ounce, 60c; pound, \$7.00, postpaid. No Discount.**

PEPPERMINT (Mentha Piperita)

True Peppermint. Leaves and stems may be used for flavoring. Plant in low place, where water stands, or overflow from your outdoor pump. Must be grown in wet place to do well. **Price: 6 roots for 60c.** Six roots will spread and make plenty for average family.

Mary Washington ASPARAGUS

There is no variety of Asparagus as good as Mary Washington, and whether for home use only or for market, you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture, and although a recent introduction, it has become famous the country over.

Growers everywhere are discarding all other varieties in favor of Mary Washington, because it is earliest, the stalks are larger, more tender, more productive than any other variety.

ROSES

HOW TO GROW ROSES

Everblooming bush Roses are not hard to grow, if you will follow these simple instructions. Plants should be taken out of the package as soon as they arrive. Start to plant as follows. A sunny location, where the sun shines at least half of the day is the best. The soil should be prepared ahead, and mellow, with some well-rotted manure worked in or some commercial fertilizer.

VIGORO used according to directions on the package will do. Never allow the plants to lay around in the wind and sun to dry out. If unable to plant for a day or two, bury them—roots tops and all—4 inches deep. Dig holes large enough to allow the roots to be spread out in all directions. Do not wind the roots around in the hole. Plant so the joint will be 1 inch below the soil after you have leveled the ground off. Next mound soil around the plant 5 inches high. Now trim off all of the plant 1 inch above this mound. Leave this mound around the plant for 10 days, then gradually level it, and start cultivation. Plants mounded in this manner will not become dry before they have a chance to start growing. Plants should be set 20 inches apart each way. Some clay added to the soil is very good where your soil is a little sandy. Two applications of VIGORO through the growing season, and watered in will keep them blooming all summer and fall. Never sprinkle the tops of the Rose plants. Rather let the hose lay on the ground under the plants and soak in. Cut off all blooms after they are through blooming. Cut below the second leaf, and the stem will sprout out and another bloom will appear in a short time.

ROSES

PAUL'S SCARLET CLIMBER. The "Reddest Rose That Grows" and the most popular of all climbers. Large, semi-double blooms in bold clusters hold their vivid scarlet color until the petals fall. Very fine for trellises and arches, or can be kept nipped back to bush form. **Prices: 2-yr.-old large plants, ready to bloom, each 95c; 3 for \$2.60. Less Discounts.**

SILVER MOON CLIMBER. Creamy white semi-double flowers with golden anthers, in clusters. Large pointed buds. Vigorous grower, and blooms over a long period. Fragrant. We offer large 2-year-old plants that will bloom. **Prices: Each 95c; 3 for \$2.60. Less Discount.**

Talisman

Aster, Blue Lagoon

Aster, Palmyra

Hardy Asters

BLUE LAGOON. A charming variety of the Novi-Belgi type, with beautiful large lacy-blue flowers, with yellow centers. In early September the 2- to 3-ft. bushy plant will be completely covered with bloom, lasting into late fall, to be killed with hard freezes. **Large clump field-grown plants, each 50c; 3 for \$1.45. Less Discount.** Plant lasts for years.

PALMYRA. Best pink of the Novi-Belgi type. Pure pink, with yellow center. Most delicate of the pink varieties. The 3- to 4-ft. plants come into bloom in early September and bloom to hard frosts. **Large field-grown clump plants, price: Each 50c; 3 for \$1.45. Less Discount.** Plants last for years.

DELPHINIUM

BELLADONNA. Sky-blue Favorite tall growing. Many branches. Entire stem in bloom at the same time. Hardy. **Field-grown plants, price: Each 50c; 3 for \$1.25. Less Discount.**

FORGET-ME-NOT, Pink

This truly Pink Forget-Me-Not is a hardy low-growing plant completely covered with dainty tiny pink flowers from June to November. Fine for rock gardens and borders. **Clump plants, each 35c. No Discount.**

RUSSELL HYBRID LUPINS

In our selected Russell Hybrid Lupines you will find a wide range of colors: Pinks, red, blue, maroon, purple, and many bicolors like blue and yellow, red and white, purple and cream, red and bronze, and many others. Many individual flowers an inch across. The flower spike resembles a closely set, rounded column of Sweet Peas. We offer you fine hardy 2-year-old plants that will give you a mass of bloom this year and many years after. All the flowers open at one time from top to bottom. Spikes 3 to 5 feet tall when planted in good garden soil. We offer mixed plants. **Price: 3 for \$1.10; 6 for \$2.00; 12 for \$3.60. Less Discounts.**

LITTLE BOB —The New Dwarf Chrysanthemum

A charming low growing Mum from England. Will make a 24-inch wide plant in one year, and early in the fall this plant will be completely covered with dainty small button-like mahogany-bronze flowers, that last way late into the fall to be killed with a hard freeze. Beautiful deep green foliage. Plants last for years, getting larger. **Large field-grown plants, prices: Each 45c; 3 for \$1.15. No Discount.**

A Bleeding Heart would make a wonderful MOTHER'S DAY gift. Let us send it POSTPAID to your mother. Each 75c, POSTPAID, when it's a gift.

Old Fashioned BLEEDING HEARTS

This lovely hardy old-fashioned plant is loved by all. Lives for years and comes forth each spring, right after the snow goes off, with its long arching stems, loaded with dainty heart-shaped flower pendants. Rosy red, pale yellow centers. All stems do not appear at once. Will bloom over a 6-weeks period. Plants are very hardy, and can be divided every 3 years. Plants go dormant in June in time to plant annuals like Zinnias or Marigolds. **Large field-grown clump plants, price: Each 75c; 3 for \$2.00. No Discount.**

Yellow Cushion Mum—First Year Planted

**Pink Cushion**  
New Hardy  
CHRYSANTHEMUM

## Cushion Mums FIVE COLORS

Cushion Mums are the most sensational creations of all the Mums. A small plant will grow into a mound of blooms as large as a wash tub in a single summer, 100 to 1000 blooms on a single plant, all in bloom at the same time. Starts blooming in August. (Ideal for cemetery landscape work.)

**PINK CUSHION.** Dainty pink. Strong grower. Hundreds of blooms first year. Hardy, and will last for years. **Strong field-grown plants, prices: Each 45c; 3 for \$1.10. Less Discounts.**

**BRONZE CUSHION.** Rich bronze mound of beauty. Blends well with autumn colors and other color Cushion Mums. **Strong field-grown plants, prices: Each 45c; 3 for \$1.10. Less Discounts.**

**WHITE CUSHION.** Pure white as the freshly drifted snow. Strong grower and early bloomer. **Strong field-grown plants, prices: Each 45c; 3 for \$1.10. Less Discounts.**

**YELLOW CUSHION.** Bright yellow, with darker yellow centers. Larger individual blooms than other Cushion Mums. Ideal cut flowers for table decorations, where short stems are sufficient. Hundreds of flowers the first year. **Strong field-grown plants, each 50c; 3 for \$1.35. Less Discounts.**

**SANTA CLAUS, RED CUSHION.** The most brilliant of all Cushion Mums. Large red double blooms with yellow centers. Another fine-cut flower variety. Any of these five Cushion Mums are an ideal plant to plant on or around graves, as they will stand more abuse and neglect than any flower you could use. Hardy and blooms every year. **We offer strong field-grown plants, each 50c; 3 for \$1.35. Less Discounts.**

Autumn Lights

## Large Flowering Mums FIVE NEW KINDS AND COLORS

Well-rooted plants will bloom freely this year and every year. Tall growers with large flowers.

**ALGONQUIN.** Early bright sunlight yellow. Free bloomer. Fine cut flowers.

**JOANNE HELEN.** Brilliant cerise-purple-red with shining yellow centers. Semi-double compact grower. No other color like it. Fine cut flower.

**AUTUMN LIGHTS.** Double coppery bronze overcast with orange lights. Sturdy branching type. Free bloomer. Dandy cut flower variety.

**CRIMSON SPLENDOR.** Large double deep crimson-red of great beauty and substance.

**JEANNE TREADWAY.** Soft chamoise-pink, shading to rose-ash center. Most charming double large flowering Mum.

**Large, strong, field-grown plants, Prices: Each 50c; 3 for \$1.25. No Discount. One of each of the above 5 varieties for only \$1.85. No Discount.**

**MIXED** large flowering Mums. Not labelled, and our selection. All different colors. **Strong field-grown plants, 5 for \$1.60; 10 for \$3.00. No Discount.**

## CARNATIONS FIVE COLORS

All double. Big 1½ to 2-inch flowers with double and triple rows of petals, all fancy fringed. Spicy lingering fragrance. Lovely grasslike blue-green foliage. Blooms all summer. Fine cut flowers. Ideal for borders. Five colors: Yellow, Scarlet, Pink, Dark Maroon, Light Red. **1 of each for \$1.50. No Discount.**

Why not select gifts from our catalog for Easter, Birthdays, Weddings, Mother's Day, or any other occasion. We will ship on time if possible and if not at proper time. In all cases we will acknowledge order to you as well as to the one who will receive the gift. (All gifts will be postpaid by us.)

### HONEYSUCKLE,

#### Heckrotti →

Large, fragrant, flame-red trumpets lined with gold and produced in immense showy clusters, blooming from early summer until frost. Blooms the same year plant is set. Foliage dark blue-green. We offer large 2-year-old plants at 95c each. NO DISCOUNT.

### SILVER LACE VINE

(*Polygonum Auberti*)

A vigorous growing vine which attains a height or spread of 25 feet or more. Covered in late summer and fall with immense sprays of foamy white flowers. Excellent for covering pergolas, trellises, old buildings, etc. Hardy. 2-yr., field-grown vines: 89c each; 2 for \$1.60. NO DISCOUNT.

### BOSTON IVY

(*Ampelopsis Veitchii*)

The vine which clings to any surface! Thrives in shade and on northern exposures, where many others fail. Glossy, deeply-lobed leaves turn red in autumn. Perfectly hardy. Gets established first year, then grows rapidly. Especially good on cement, brick, stone surfaces where others do not cling. 2-year, field-grown vines: 69c each; 2 for \$1.29. NO DISCOUNT.
